Objective

Experienced Full Stack Developer with 3 years of expertise in designing, coding, and implementing applications using modern technologies. Proficient in both front-end and back-end development, with a track record of delivering high-quality solutions.

Work Experience

Software Developer | 2022-2024 Huawei GSC

- As a Software Engineer at Huawei, I designed and developed web applications for companies such as Pak Jazz, Saudi STC, and Qatar Vodafone.
- Used Vue.js & React.js for front-end and Spring Boot & Spring MVC for back-end.
- Translated business requirements into technical solutions, as per client requirements.

Flutter Developer Intern | Dec 2021- March 2022 | Coder Crews

- As a Flutter developer, I've delivered top-notch mobile apps from design to deployment, prioritizing visually appealing and user-friendly interfaces.

Freelance Web Developer | Upwork | 2019-20

- Delivered projects with a focus on customizing dashboards, implementing e-charts, and optimizing website performance.
- Collaborated closely with clients to understand needs and deliver tailored solutions.

Projects

Pak Jazz VoWiFi (Huawei GSC) | Vue.js, Spring Boot, MySQL | December 2023

- Implemented monitoring systems to track daily, weekly, and monthly failure and success rates of roaming and International Gateway activities.
- Led integration of eNodeBs onto GIS map for visual representation in the Pak Jazz VoWiFi project, enhancing project visibility with monitoring systems.

Saudi-STC KPI UI Dashboard (Huawei GSC) | Vue.js, Spring Boot, MySQL | September 2023

- Implemented a comprehensive tracking system to analyze root causes of failures in Circuit Switched (CS) and Packet Switched (PS) services, addressing customer requirements.
- System covers both incoming and outgoing calls/data, providing detailed insights for quick issue resolution.

Egypt GSC CEM Dashboard (Huawei GSC) | Vue.js, Spring Boot, MySQL | March 2023

- This system facilitates streamlined monitoring, reporting, and decision-making to ensure the successful advancement of Customer experience Management (CEM) strategies.

Education

Bachelor in computer Science (Comsats University Islamabad) | September 2018-22

Digital Student Diary (Final Year Project) | Java, XML, Firebase, Android App | June 2022

- Developed "Digital Student Diary," an Android application aimed at enhancing parental involvement in their child's school management and progress tracking.
- Utilized Java programming language for application development.
- Implemented Firebase as the backend database solution to store and manage data.

Live Weather App (Semester Project) | Flutter, Dart, Android App | September 2021

- Designed the app using the Flutter framework and Dart programming language.
- Integrated OpenWeatherMap APIs to fetch weather data and Geolocator package for location.

Certifications

- Java Spring framework 6 with spring Boot 3 (By Udemy)
- Flutter Development with Dart Boot Camp (By Udemy)
- Docker for Java Developers (By Udemy)

Skills

Languages: Java, Dart, JavaScript, TypeScript, Nodejs, HTML/CSS, Bootstrap, Tailwind CSS, SQL, MongoDB

Framework/Technologies: vue.js, React, Spring boot, Spring Data JPA, Git/GitHub

Developer Tools & Software: VS Code, Android Studio, IntelliJ IDEA, Post man, DBeaver, Docker, Office

Soft Skills: Time management, Communication and negotiation, Teamwork, Problem solving and creativity
